MICROFICHE INDEX

Report 20

Issue 5

January 1973

Digitized by the Internet Archive
in 2024 with funding from
University of Toronto

<https://archive.org/details/31761116356650>

Introduction

This index lists the holdings of the CTC Research Branch microfiche file. A looseleaf format has been used to facilitate the updating of the list by periodic supplements rather than by complete re-issue. A three-ring type of binder will allow the most ready addition of such supplements. The index is issued in four sections: 'AD', 'COM', 'PB', other, corresponding to the document classification assigned by the issuing National Technical Information Service.

The collection and a large viewer are located in Room 1509 Congill Building. A small portable viewer is available for loan within the building.

The Document Collection

Microfiche documents are obtained from the National Technical Information Service (NTIS) of the U.S. Department of Commerce. The service was established to provide a fast, low cost clearinghouse of research and development reports carried out or sponsored by the U.S. Government. It has since been extended to issue selected reports from other sources including translations of foreign material; however, documents are available in English only.

Subject Indices and Abstracts

A subject index has not been included with this microfiche list. A key-word index to all documents received up to August 1, 1971 (as published in September, 1971) is available in Room 1509 and in the C.T.C. Library. A complete key-word subject index to all NTIS reports for the calendar year 1971 is on file in Room 1509.

Abstracts of all NTIS-distributed reports are published in bi-weekly '(U.S.) Government Reports Announcements'. Copies are held in the C.T.C. Library, 17th Floor, Congill Building, Ottawa.

Document Availability

The Systems Analysis Branch maintains a standing order with NTIS for several transport-related subject categories. Additional orders for microfiche or paper copies may be placed directly with NTIS. C.T.C. personnel may make use of the deposit account established with NTIS to prepay orders. Orders take approximately three weeks. The National Science Library, National Research Council, 100 Sussex Drive, Ottawa, receives all NTIS microfiche documents and will provide a duplicate fiche, with some loss of contrast and clarity. Photocopy enlargements can also be obtained for entire documents or specific pages.

Document Prices

MICROFICHE

Standing order from NTIS: \$0.50 per document
Individual orders from NTIS: \$2.45 per document
Copied fiche from NRC: \$0.50 per document

PAPER COPIES

Individual orders from NTIS: \$5.50 per copy and up, depending on length. A xerox copy may be substituted if originals are not available.

Photo copies by the page from NRC: 10¢ per page, (minimum \$1.00).
